WELCOME

Thank you for considering AWSITC!

AWSITC is a fantastic way to unlock your future potential!

I appreciate the initiative by MESC to start with Authorised World Skills India Training Centers (AWSITC) offering skills oriented training programs which MESC shall be representing the Country during World Skills Competition or any other competition on national or international stage.

AIWSTCs of MESC will prepare and groom the candidates on global standards and in turn we will get glory to the nation with more golds for the country. World Skills Competitions are a great demonstration of the importance of every trade. Not just the white collar jobs or government jobs are the way of living; being skilled is the matter of prestige. No one ever can take the skill of your hands away. AWSITC provide support for all of your study-related needs and our friendly and knowledgeable staff are committed to helping you every step of the way.

Our programs combine theory and practical experience to equip you with the right skills and knowledge to make your mark in the global market. On behalf of AWSITC; I welcome you to the world of Champions and wish you all the success in future competitions.

You can be the talented and skilled candidate representing our country and be the pride of the nation on a WorldSkills Stage!

A handwritten signature in black ink, appearing to read 'Subhash Ghai'.

AWSITC is where ambition lives. This guide introduces you to everything that AWSITC offers and goes hand-in-hand with the wealth of information on Authorized WorldSkills India training Centers.

VISIT THE AWSITC WEBSITE**study@awsitc**

The website has all the information you need to make an informed decision about studying at AWSITC. It's regularly updated, so visit it for:

- + everything you need to know about AWSITC
- + details of all currently available courses
- + online shortcuts to everything you need to apply for a AWSITC course
- + links to documents and forms

QR CODES IN THIS GUIDE

On some pages you will find a QR code. A QR code is a barcode which you can read on your smart device. When a smartphone or tablet scans the code, a related web page opens.

How to use QR codes

1. Open your QR reader app.
2. Place your device's camera over the code; it will auto focus and scan the code.
3. The selected web page will open.
4. Do the same with any QR code in this guide. They will take you to different web pages.

THIS GUIDE

STEPS TO SUCCESS

1

LEARN ABOUT AWSITC

AWSITC stands for Authorised WorldSkills India Training Center.

Discover why AWSITC can provide the best start to your dream career. Learn about our teachers, locations, courses – and why you can feel safe choosing AWSITC.

AWSITC can make you an expert professional with proficiency of representing the country on global stage.

- + **Why Study with AWSITC? Page 4**

2

DECIDE ON A COURSE AND QUALIFICATION

Find your ideal course using the profiles in this guide for inspiration – and be sure to visit **study@AWSITC** to discover all the courses on offer. Follow your passion and choose the course that attracts you the most. AWSITC offers Skilled courses that leads to the path of success

- + **Graphic Design Technology: Page 8**
- + **3D Digital Game Art: Page 9**
- + **Print Media Technology: Page 10**

3

CHOOSE YOUR AWSITC LOCATION

Find out about life on location at AWSITC and think about where you'd like to learn. Think about the location close to your loved ones

- + **AWSITC locations: Page 11**

4

CHECK THE ENTRY REQUIREMENTS AND LIKELY COSTS

Before you apply for a course, make sure you meet the entry requirements and have worked out how much you'll need to pay.

At AWSITC students will get a head start on their careers, as the programs, teaching methods and out-of-class experiences provide intensive, hands-on, usable, real-world learning.

- + **+ Your enrolment: fees and scholarships: Page 12**

5

APPLY

Once you have decided on your course and a location that offers it, the only thing left to do is apply.

You can apply through a the portal, by visiting the nearest AWSITC

- + **How to apply: Page 15**

WHY STUDY AT AWSITC?

AWSITC will groom and prepare the students for elite class skill competitions including IndiaSkills and WorldSkills.

INDUSTRY LINKED

AWSITC will be offering programs as per the WorldSkills Guidelines & Standards set by Industry.

- + Candidates in first 3 months will be prepared to compete in State & Regional competitions
- + Post 3 months will be given intensive training to compete for India Skills - Wild Card Entry
- + After the successful completion of the Course, the candidates would be offered the placement in the industry

INDUSTRY BUY-OUT

Students post completion of training shall either be competing in Nationals based on selection else will be placed in respective Industry as Intern/Employee.

ONGOING ASSESSMENT & EVALUATION

MESC will be conducting periodic assessments & evaluation to ensure training is in line with the defined objectives

SUPPORT & KNOWLEDGE TRANSFER

MESC will work with AWSITC & Industry to provide best possible training to Candidates and will train experts on World Skills Criteria & Standards

PLAN OF SKILL COMPETITIONS

1

Candidates in first 3 months will be prepared to compete in State & Regional competitions

2

Post 3 months will be given intensive training to compete for India Skills - Wild Card Entry

3

After the successful completion of the Course, the candidates would be offered the placement in the industry

COST OF INTERNATIONAL COMPETITIONS

MESC will bear the following expenses when the candidate is selected for international competitions:

- + Accommodation
- + Food & beverages
- + Travel Cost
- + International training cost for preparation of WorldSkills.

WHY STUDY AT AWSITC?

AWSITC aims to provide opportunity for every candidate to showcase their skills nationally and globally, while also offering them advantage to work with the Top Employers or set-up their own business.

CHOOSE WITH CONFIDENCE

AWSITC is an integral part of Media & Entertainment Skills Council. With AWSITC you can be assured that:

- + Courses and curriculum are accredited under the National Skills Qualifications Framework and recognised by industry and employers
- + Nine months at AWSITC will ensure you are trained as per the Industry requirements
- + We will send our graduates into the industry, confident-connected, and armed with the professional portfolios, demo reels, or short films

STUDY IN AMAZING FACILITIES

AWSITC facilities will be designed with the creative students in mind :

- + Spacious classrooms, studios equipped with industry-related software and hardware
- + Both Mac and PC computer labs offering productive learning atmosphere
- + Real-world perspective, work setting and industry standards into the classroom.

LEARN FROM EXPERIENCE

AWSITC teachers:

- + MESC Certified professionals in their respective fields
- + Are dedicated, supportive and friendly
- + Academic programs will be carefully structured with the support and contributions of members of the professional community

GET THE SUPPORT YOU NEED

AWSITC will offer a nurturing environment where creative students can thrive.

- + Unique opportunity for students to gain on-the-job skills through participation in internship or externship experiences at local and nationally recognized companies
- + Offer platform for students to compete in state, regional, national and international competitions both now and in the future.

BECOME A JOB-READY

AWSITC works closely with employers to make sure you develop the right skills to make you productive and competitive in the employment market. At AWSITC:

- + courses are updated regularly to make sure they are current and relevant
- + you will gain skills and knowledge closely linked to your chosen industry's needs
- + employers are confident that AWSITC graduates can perform tasks to industry standards.

Represent your Country at the International Platform

AWSITC candidates will be prepared to participate in zonal/ regional etc.

- + 3D Game Art
- + Print Media Technology
- + Graphic Design Technology
- + Industrial Design Technology

From registering for India Skills, with so much hope, to qualifying as the national candidate, it all passed by too quickly! I look back and realise it's been an amazing journey up till here. And it didn't just begin with the competition but starts way before, when I had no inkling of what 'design' is.

I was thrilled when I qualified to be a part of WorldSkills, a vast platform with such incredible possibilities. The full intensity of this opportunity only hit me after the National competitions had ended, and I had made my way to AsiaSkills Abu Dhabi - my first international competition experience. Just the rush that passes through me when I see my name next to the Indian flag is enough to make me work as hard as possible to achieve the dream of getting a medal for the country! I feel blessed to have qualified as the final candidate for representing India at WorldSkills Kazan; all the effort, training and selection rounds have left me motivated and inspired to work and train even harder. With less than a month to go for World Skills 2019, I plan to focus on my areas of improvement to make myself better able to compete at the ultimate stage. I have partaken in several design challenges to push myself in addressing those areas and will continue to do so further on. I feel confident in my abilities and my only aim is to bring back a GOLD medal.

Shweta Ratanpura

Get yourself a Chance to make India proud with your skills at the

WorldSkills

International Competition

WorldSkills Competitions are the gold standard of skills excellence. It is the largest skill competition in the world, organized once every two years in one of the 81 member countries. More than 1300 contestants below the age of 23, compete for gold, silver and bronze medals, in over 50 skills. The Competitors represent the best of their peers and are selected through skill competitions at District, State, Regional and National Level in World Skills Member countries. WorldSkills inspire young Competitors to reach new heights, helping them turn their passion into a profession.

Authorized
Training
Center

Authorized WorldSkills India Training centers will prepare the candidates to excel their skills by facilitating the training, workshops and interactive sessions with elite class trainers, Industry Professionals and WorldSkills Experts and Mentors.

Register yourself at:

www.mescindia.org/awsitc

Why Participate in WorldSkills?

- + Chance to represent India at the World's Largest Skill competition - WorldSkills.
- + Showcase your skills at National and International level.
- + Shape your career through Skills competitions
- + Never ending career opportunities
- + International Exposure
- + Get trained from World's best trainers
- + Be a Leader in your Skill

AWSITC - Regional Skills Competition

After the successful commencement of batches, AWSITC will host the Regional Skill Competition in 4 regions of the country. The students from each region will compete together. The winner candidates of every region will get the chance to participate in the National level competition.

AWSITC - National Skills Competition

AWSITC will host the mini WorldSkills competition where the winners of all the Regional competitions will showcase their skills to win the spot at the IndiaSkills.

IndiaSkills - the biggest Skills competition of India

Launched by Ministry of Skill Development and Entrepreneurship (MSDE) & National Skill Development Corporation (NSDC), India skills is held every alternate year to select the candidates who will represent India in worldskills with the Vision & Mission to create:

- + A Platform where emerging professionals can display their workplace skills with utmost perfection and make India proud.
- + Facilitate cooperation between government, industry and academia
- + To create nationwide awareness, ownership & participation across various skills.
- + To help Indian youth attain world class standards of competence, excellence and productivity.

Champions of WorldSkills

Kazan Russia 2019

My journey with WorldSkills started more than a year ago. Back then, this was just something I thought I should try my hand at. Never had I imagined, that I would leave everything just to train for the competition and be worthy of the jersey given to me with 'India' written on it.

It is a feeling like no other - to be selected to represent a country of 1.4 billion for your skill, to proudly carry the Indian flag on your shoulders while receiving a medal, it's pretty surreal!

While going through the various selection rounds - from college, the regionals, nationals; with each passing round, I started taking the competition more seriously. I had no idea about the scale or the importance of the global platform that WorldSkills was providing until the Nationals.

I was really lucky to be selected in the top two chosen candidates after the national round. It was after this that I really picked up pace and gave my everything to the training and mentoring sessions.

We were training under the WorldSkills India appointed coach and expert Mr. Sathish Narayanan, our classes would go on for 8-10 hours each day, 6 days a week. But that was not all, to be able to perform at our peak at the final WorldSkills competition, we needed to be physically and mentally fit as well. I was exercising daily, attending yoga sessions, monitoring and regulating my diet so that I'll be comfortable in the foreign environment in Russia later. This really helped me later during the actual competition because a lot of other competitors were thrown off by the climate change and had fallen ill during the four days of our test modules. The arena in which our workstations are set up is humongous, because it houses more than 50 different skills and it stretched over an expanse of 74.8 hectares. To even visit the nearest washroom and back is quite a walk. And on top of that, the modules are really intense and the 6 hours of the competition are really crucial and tiring. So it was really important to be fit and have high levels of energy throughout the 4 days of the competition.

As for the test projects related to Graphic Design, it's not just about how creative you are but about how well you can use the limited time and resources, work with strict restrictions and still come up with innovative ideas for the brief given to you. It's also about your knowledge of softwares and industry specific technicalities.

While my 4 years of education at the National Institute of Design helped me think creatively and stand out with my ideas, the training provided for WorldSkills helped me use my creative strengths, understand my weaknesses, and strategically work on how to score the maximum marks at the competition. Candidates from countries like China, France, Russia, etc had been training exclusively for WorldSkills for more than 4 years. Thus, personally, I would say it's really important that a candidate comes from a design background, because one year of training is a really short time to learn about Graphic Design as well as channelize those learnings to perform at WorldSkills.

Lastly, I'm really happy that I learnt so much over the last year, met amazingly talented people, got to visit and explore the cultures of different countries, found friends that I can call family and made some of the best memories of my life!

Shweta Ratanpura Graphic Design Technology
**The First Indian Woman to win the Bronze Medal
at the WorldSkills.**

My journey started when I was doing my second year of college and my mother called me one day to tell me about the IndiaSkills ad she saw in the newspaper and wanted me to go home to Kerala to participate for the 3D Game Art competition. In Kazan, while i was at my workstation working on modules, i faced a lot of challenges that i couldn't even anticipate. But i was lucky enough to work my way through them and develop a product that won me a Medallion for Excellence.

It was like a test of Endurance, because i had times where i felt everything was falling apart and wanted to quit. But then i remember i have to fight on no matter what, at any cost. That attitude got me into thinking positive and i was able to finish everything on time in a way I wanted.

My message for upcoming competitors is that while you are at there, you have to have control over your mind and body and you must be able to visualize the goal. There will be pressure and challenges that might bring you to your knees, but the strongest thing you could do there is to get back up and fight your way through it.

He says, "You are your only obstacle."

Nidhin Prem 3D Digital Game Art

Winner of Medallion of Excellence - at India's first attempt in Gaming.

WINNERS OF MEDALLION OF EXCELLENCE

NIDHIN PREM

**Medallion, WorldSkills 2019, Kazan, Russia,
3D Digital Game Art**

A passionate student of animation and gaming from Bharati Vidyapeeth University, Pune. He introduced himself on the global stage. Nidhin prem was our candidate for WorldSkills Kazan 2019 in the category of 3D Game Art. From Kochi, Kerela to Melbourne Australia; Nidhin raised his bar of excellence. Nidhin won Silver medal in 3D Game Art in Global Skill Challenge at Melbourne, Australia in the month of April 2019. Nidhin with a dream to work with AAA Game Design Company and got his training from Lakshya Digital and currently working under them.

Simoul Alva

WorldSkills Abu Dhabi 2017

After she was awarded the winner of Mini Skills Russia & Medallion of Excellence, 2017 for Graphic Design Technology, she went on to work for Pentagram, New York under Michael Bierut. Ms. Alva was also named as one of the 25 upcoming designers under the age of 25 by TATA Gen X Nano. She is also the South Asia Pacific recipient of the Helen Landsowne Resor Scholarship by J. Walter Thompson and the 4A's Foundation for 2017.

Sriram Govindasamy

WorldSkills Sao Paulo 2015

He is the Winner of Medallion of Excellence 2015, 10th Rank Holder, WorldSkills 2015, in the Skills Graphic Design Technology. After he participated in the competition, Mr. Govindasamy has been actively working for various multinational companies. Currently, he is working as a Visual Designer at Freshworks Inc. earlier called Freshdesk.

Arun Raj Balasubramani

WorldSkills Leipzig 2013

Medallion of Excellence 2013 & Best in Nation Award in Graphic Design Technology, Mr. Arun Raj's career growth has been tremendous. He started his own company with over 60 employees which later on was acquired by Freshworks Inc. which was earlier called Freshdesk, a multinational company with over 2500 Designers on board and is currently the Director of Design.

GRAPHIC DESIGN

CREATIVITY AT ITS BEST

The world of graphic design is a fascinating one, serving as both sponge and mirror to the broader world of technological and social change. It is a creative skill that influences many of the daily items we look at from websites to restaurant menus.

Without design, the world that we live in would be completely boring and lifeless. Graphic design has successfully made its way in our everyday lives, both real-world and digital. It has upped the appeal of things we use/see on a daily basis, such as advertisements, brands, games, apps, websites, etc. As technology continues to advance and popular preferences change, so will graphic design.

CAREER OPPORTUNITIES OF BEING A GRAPHIC DESIGNER

- + Art Artist
- + Creative Artist
- + Film and Video Editor
- + Graphic Designer
- + Industrial/Product Designer
- + Multimedia Artist/Animator
- + Technical Writer
- + Web Designer

Worldskills is a great platform. The journey taught me a lot and the mentorship I received was invaluable.

"After I was selected, I was informed how I needed to learn not just graphic design, but how I should be technically sound. I was sent by MESCI to the best studios for technical learning. We often looked at design articles to critique what is good design and what is not. I gained a holistic understanding of design practice"

COURSE

INDUSTRIAL DESIGN TECHNOLOGY

Make a full time career in Print media technology

Consumer products for mass consumption need both to work well and look good. This is the role of Industrial Design Technology, which also makes sure that a new product is technically feasible to make, meets the need in the marketplace, and can be sold at an acceptable price.

Industrial Design Technology combines design and engineering. In smaller companies and start-ups, this can mean covering all stages of the process or working as part of a team in larger organizations.

Industrial Design Technology requires a wide range of skills and understanding, including market research, design, engineering, product analysis, materials, and good communication.

CAREER OPPORTUNITIES IN THE FIELD OF INDUSTRIAL DESIGN TECHNOLOGY

Designs are part of our lives, they are everywhere in virtual as well as physical spaces. The demand for industrial designers is increasing all across the globe and offers a fulfilling career. Studying design is quite challenging as the degree program takes three to five years to complete. Being immensely rewarding, the degree has become widely popular. After completing graduation, one may start his career as a graphic designer to create graphics for ads, publishing houses and others. Some of the leading job profiles associated with this course involve:

- + DESIGN MANAGERS
- + TEXTILE DESIGNER
- + CUTTING ASSISTANT
- + FASHION MERCHANDISER AND MANY MORE.

Alomi Parikh has been a Product Design student at Maeer's MIT Institute of Design, Pune. She completed her schooling in J.B.Petit High School for Girls, Mumbai in 2016 followed by Junior College at H.R. College of Commerce and Economics, Mumbai.

Over the years, Alomi has interned for short periods in various organizations / companies. She has worked with FitPermit - an online pay-per-turn start-up; Loyora Design Inc. where she worked as a Product Design Intern and worked on multiple Toy, Packaging and Furniture Design projects and at Kala Form - a social and cultural start-up where she worked as a Product Design Intern on Menstruation Health and Safety and worked on developing products related to the emerging 'Menstrual Cup'.

Her selection for WorldSkills Kazan 2019 was based on her consistent performance over the years at MITID. Her current C.G.P.A is the highest in the Industrial Design discipline which makes her an ideal candidate for the WORLDSKILLS Competition 2019.

3D DIGITAL GAME ART

BE A 3D GAME ARTIST

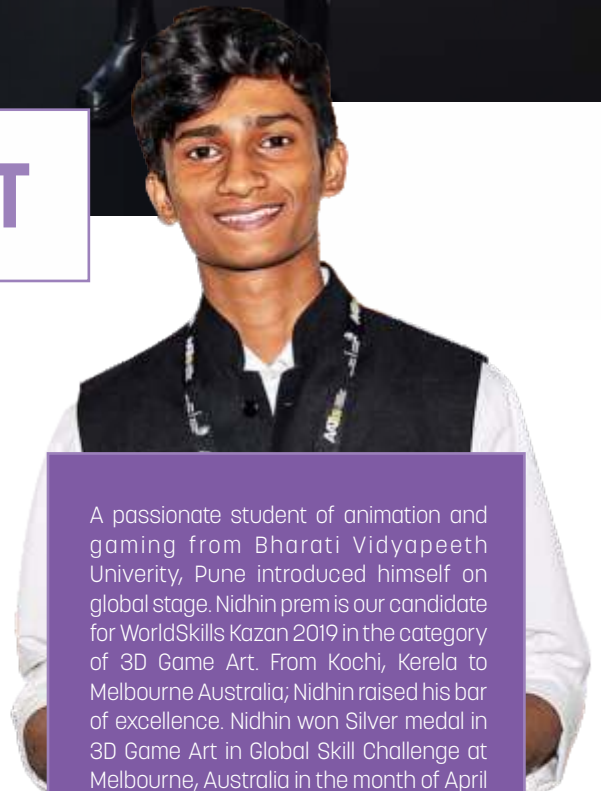

AWSITC can help you meet the required global standards of your 3D Game Design.

3D Game Art is an emerging field in India. As the younger generation becomes more tech savvy, the need for designers and developers is on the rise. The process of game design begins with brainstorming ideas, contents and rules, and evolves from a simple idea into a complex game where everything from environment, storyline, characters, props, lighting, speed, movement, reflection, animation and sound effects have to be mastered.

3D Art almost definitely has a higher demand. The evolution of computer graphics and design and animation software has led to 3D being the standard medium. This will almost definitely continue to be the case, as new technologies such as VR and AR are also highly dependent on 3D art.

CAREER OPPORTUNITIES AS A 3D GAME ARTIST?

- + 3D ARTIST
- + LAYOUT CONCEPT ARTIST
- + GAME DEVELOPER
- + GAME DESIGNER
- + 3D CHARACTER ARTIST
- + 3D GAME ARTIST
- + 3D SCULPTOR ARTIST
- + PROPS DEVELOPER
- + CHARACTER CONCEPT ARTIST

A passionate student of animation and gaming from Bharati Vidyapeeth University, Pune introduced himself on global stage. Nidhin Prem is our candidate for WorldSkills Kazan 2019 in the category of 3D Game Art. From Kochi, Kerala to Melbourne Australia; Nidhin raised his bar of excellence. Nidhin won Silver medal in 3D Game Art in Global Skill Challenge at Melbourne, Australia in the month of April 2019. Nidhin with a dream to work with AAA Game Design Company is getting trained for upcoming WorldSkills Competitions at Lakshya Digital, the best in gaming industry. Let's keep the hopes high and wish Nidhin best of luck for the WorldSkills Competitions.

COURSE

PRINT MEDIA TECHNOLOGY

Make a full time career in Print media technology

AWSITC can help you meet the required global standards of your Print Media Technology.

Print Media Technology involves the production of printed material using sheet-fed offset and digital printing presses. They need to use other equipment to create finished printed products. The print media technician is involved with all aspects of the printing process from the initial planning and preparation, through to the print run, checking for consistent quality in the final product, to cleaning up after the print run is complete.

CAREER OPPORTUNITIES IN THE FIELD OF PRINT MEDIA

Print Media is one of the most flourishing sectors of the country. The young generation of today is seen choosing a career in print media as working in this sector gives promising opportunities to stride ahead very fast. But jobs in the print media also demand lot of hard work and patience. There is a huge opening for qualified printing professionals in India. Jobs for printing technologists are available in advertising agencies, newspapers/magazines, government presses, machine manufacturers, packaging industries, book printers and even more in private commercial press as technology consultant.

Shrenik a very polite and humble gold medal winner at the India Skills of the Print Technology category is from Maharashtra. Shrenik is the chosen one to proudly represent India at the global stage of WorldSkills Kazan in the month of August 2019. Shrenik has already showcase his expertise and talent in the category of Print Media technology at the platform of IndiaSkills after winning regional, State and national level competitions. He has been trained by Mr. Sameer Prabhune; the print technology expert and runs his own company under the name of Advanced Graphics.
