Introduction

Qualifications Pack- Location Manager

SECTOR: MEDIA AND ENTERTAINMENT

SUB-SECTOR: Film, Television, Radio, Advertising

OCCUPATION: Production

REFERENCE ID: MES/ Q 2804

ALIGNED TO: NCO-2004/NIL

Location Manager in the Media & Entertainment Industry is the person responsible identifying a suitable location for filming and managing any production requirements at the location.

Brief Job Description: Individuals in this job are responsible for filming/production taking place on location. Their main tasks include evaluating various locations and identifying those that are most suited for filming. The location manager is in charge of set-up, logistics and coordination at the filming location.

Personal Attributes: This job requires the individual to understand production techniques and the implications of various tasks on time, resources and budget. The individual must have a background in film making or content production. The individual must understand the logistics and facilities required during filming and be able to assess a range of locations for their suitability. The individual should have a keen sense of visual imagery and photography, and apply this to location selection. The individual must be an effective communicator and be able to support the production unit in making relevant decisions about the location.

Minimum Educational Qualifications	Graduate
Maximum Educational Qualifications	Post-Graduate in Film Production, Film Making
Training (Suggested but not mandatory)	Short Course in Film Production
Experience	4-6 Years of work experience
Applicable National Occupational Standards (NOS)	<p>Compulsory:</p> <ol style="list-style-type: none"> MES/ N 2806 (Assess Suitability of a Filming Location) MES/ N 2807 (Manage Live Programme Production) MES/ N 2809 (Coordinate Production Activities) MES/ N 0104 (Maintain Workplace Health and Safety) <p>Optional: N/A</p>
Performance Criteria	As described in the relevant OS units

Definitions

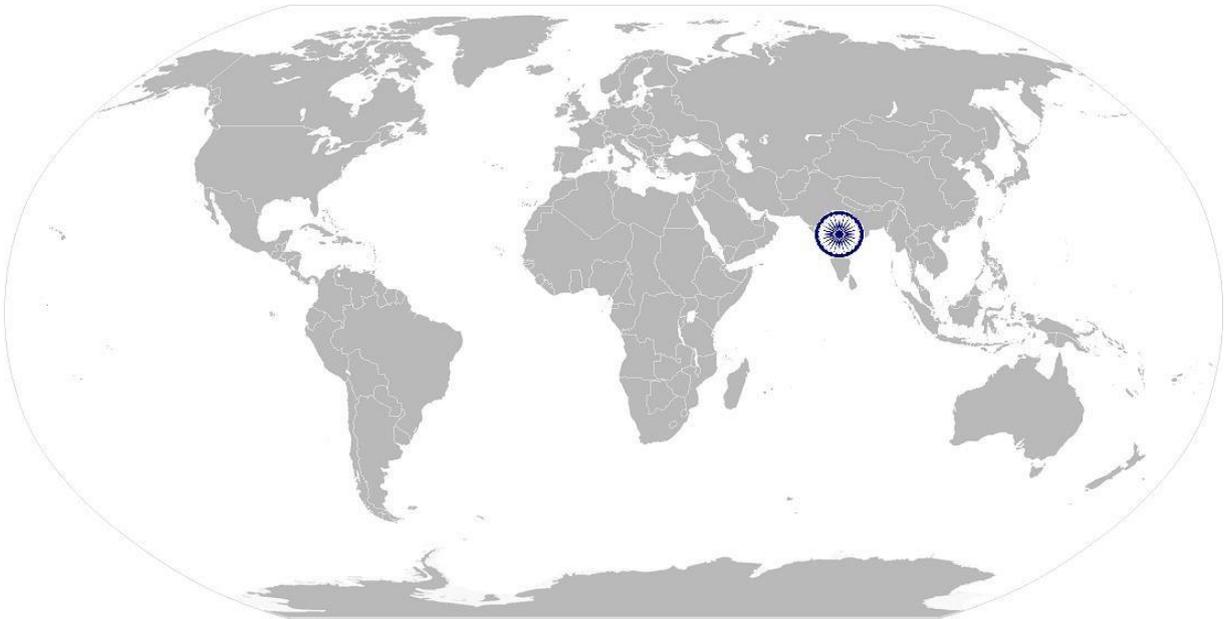

Keywords /Terms	Description
Budget	Budget is an estimate of the total cost of production that may include a break-up of cost components
Continuity	Continuity represents the seamless transition from one shot to another
Copyright Laws	A legal framework linked to intellectual property and the rights given to creators of original products/ concepts
Financer	An entity (individual or organization) that provides financing for a project
Labour Laws	Legal norms governing the relationship between workers, employers, trade unions and the government
Post-production	Post-production is the final finishing phase of the production, where the raw footage is edited, special effects are added, music and sound are integrated, colour correction is done etc.
Props	A property, commonly shortened to prop (plural: props), is an object used on stage or on screen by actors during a performance or screen production. In practical terms, a prop is considered to be anything movable or portable on a stage or a set.
Screenplay	Screenplay is the script coupled with key characteristics of the scene and directions for acting
Script	Script is a structured narrative of a story
Set	The background/ scenery visible through the camera (for video production) or directly to the spectator (for theatrical production)
Set Etiquette	A set of guidelines that dictate how cast and crew should behave on set and interact with each other
Target Audience	Group of people at whom content/ adverting is aimed. A target audience is typically defined by age, gender, economic classification, geography and any other relevant parameters (e.g. Females, aged 25-40, average monthly household income INR 25,000-50,000, from Hindi speaking states in North India)
Timelines	Timelines is a listing of dates by which the production milestones/stages need to be completed
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.

Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.
Sub-functions	Sub-functions are sub-activities essential to fulfill the achieving the objectives of the function.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.
Qualifications Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack.
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
Unit Code	Unit Code is a unique identifier for an Occupational Standard , which is denoted by an 'N'.
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.
Organizational Context	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities.

Acronyms

Core Skills/Generic Skills	Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS , these include communication related skills that are applicable to most job roles.
Keywords /Terms	Description
NOS	National Occupational Standard(s)
QP	Qualifications Pack
NVEQF	National Vocational Education Qualifications Framework
NVQF	National Vocational Qualifications Framework
NSQF	National Skills Qualification Framework

Overview

This unit is about identifying possible locations for filming, conducting location surveys (recces) and assessing suitability

Assess suitability of a filming location

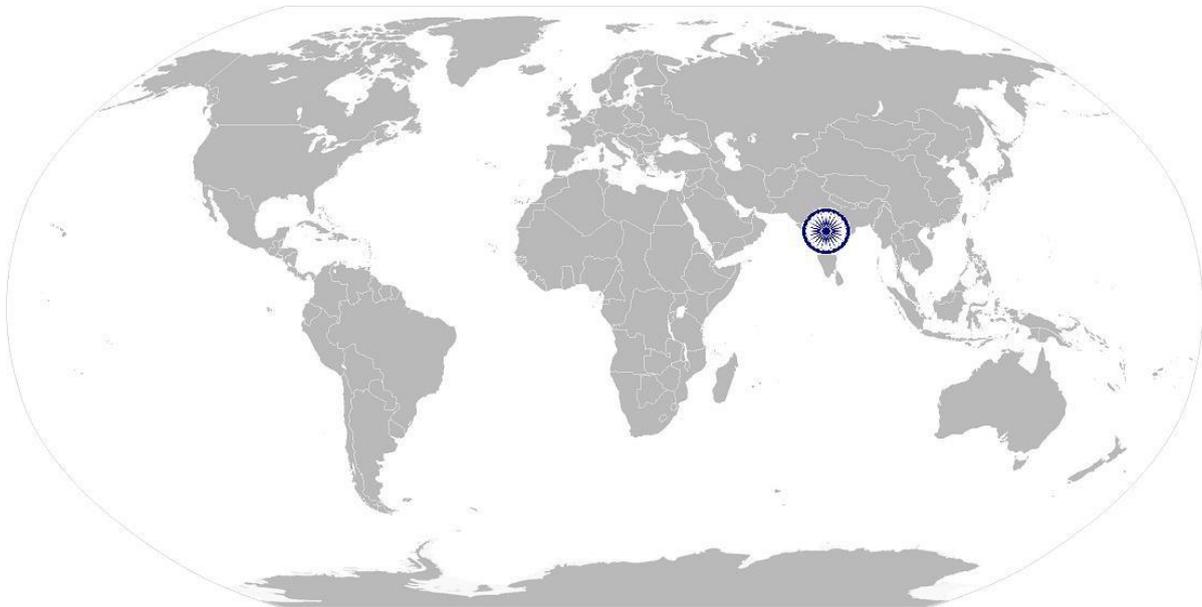

Unit Code MES/ N 2806	
Unit Title (Task) Assess suitability of a filming location	
Description	This OS unit is about identifying possible locations for filming, conducting location surveys (recces) and assessing suitability
Scope	This unit/task covers: <ul style="list-style-type: none"> Assess suitability of filming location
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Assess suitability of filming location	To be competent, the user/individual on the job must be able to: <ul style="list-style-type: none"> PC1. Determine the total space/ floor area requirements based on the script and creative brief and identify appropriate location options, across studios/sound stages, buildings, parking lots and other covered spaces, and outdoor locations PC2. Conduct a location survey (recce) and evaluate suitability on various factors (typically using a pre-agreed checklist) PC3. Prioritize locations with regard to their suitability for filming, and support decision-making/ selection of an appropriate location PC4. Contact film commissions/ other bodies to obtain necessary permissions
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: <ul style="list-style-type: none"> KA1. The vision and motivations of the creative team (Scriptwriter, Director, Production Designer among others) KA2. Production limitations such as constraints on budget, resources and time availability and any specific limits on shooting locations KA3. The role and contribution of key departments during filming, interdependencies and reporting structures
B. Technical Knowledge	The user/individual on the job needs to know and understand: <ul style="list-style-type: none"> KB1. How to interpret the script and identify location requirements (based on the space required, mood, historical context, natural backdrop etc.) KB2. How to identify 4-5 options for each type of location (based on available databases, prior experience and independent research) KB3. How to conduct a location survey (recce) – typically using a pre-agreed checklist of factors that need to be assessed KB4. How to assess the accessibility of a location including availability of public/ private transport and parking space KB5. How to check for adequate power supply (either through the grid or generators), and corresponding requirements for wires and cables KB6. How to check the location for facilities including availability of food and water, rest areas, garbage disposal etc. KB7. How to check the location for lighting, direction of sunlight, appropriate times of day to shoot and requirements for artificial lighting KB8. How to identify relevant frames and backdrops at the location (based on the script and requirements for specific shots/ scenes) KB9. How to check the location for ambient sound (recordings may be made to

Assess suitability of a filming location

	<p>assess sound level in a studio)</p> <p>KB10. How to check the suitability of the location for transporting heavy equipment (e.g. lights, grips and cameras) – e.g. the height, dimensions and any obstacles that need removal</p> <p>KB11. How to assess the location for weather patterns and any potential disruption to filming due to rain, snow, extreme heat or other conditions</p> <p>KB12. How to check the location for adequate storage space for safe and secure storage of equipment and materials required for filming</p> <p>KB13. How to identify relevant approvals and permissions (from local, state or central authorities) required for filming at that location</p> <p>KB14. How to maintain a record of all production-related documents including Non Disclosure Agreements (NDA), legal permissions, proposals, insurance contracts, team lists etc.</p> <p>KB15. How to identify the insurance requirements for different types of locations, and work closely with the finance department and other members of the production unit to make sure required insurance is in place</p> <p>KB16. How to ensure that the selected location minimize risks during production, including those to the individual’s own health and safety and of the production cast and crew</p>
Skills (S)	
A. Core Skills/ Generic Skills	<p>Writing Skills</p> <p>The user/ individual on the job needs to know and understand how to:</p> <p>SA1. Take notes and mark-up the script for location requirements</p> <p>SA2. Prepare a checklist to undertake the location survey (recce), take notes and mark-up the checklist with findings from the recce</p> <p>SA3. Use hand drawing and computer design techniques to create floor plans (i.e. parking, sound stage, storage space, facilities etc.)</p>
	<p>Reading Skills</p> <p>The user/individual on the job needs to know and understand how to:</p> <p>SA1. Interpret the script/ creative brief/ production concept/ schedule/ budget or any other type of written material</p> <p>SA2. Correctly read background information on the location, floor plans, documentation regarding approvals and permissions etc.</p>
	<p>Oral Communication (Listening and Speaking skills)</p> <p>The user/individual on the job needs to know and understand how to:</p> <p>SA3. Understand the creative vision of the Director/ Script writer and Producer</p> <p>SA4. Understand the brief from the financier and any constraints/ limitations that affect the location selection (e.g. time, people, materials, budget)</p> <p>SA5. Communicate effectively with the key heads of department, propose alternatives and agree on key decisions</p>
A. Professional Skills	<p>Decision Making</p> <p>The user/individual on the job needs to know and understand how to:</p> <p>SB1. Make relevant decisions related to the area of work e.g. choice of location based on suitability across a range of factors</p>

Assess suitability of a filming location

	Plan and Organize
	The user/individual on the job needs to know and understand: SB2. How to prepare a work schedule/ sequence of activities to help plan the location survey (recce) effectively
	Problem Solving
	The user/individual on the job needs to know and understand how to: SB3. Identify any problems with successful execution of the task and resolve them in consultation with the relevant members of the production unit
	Analytical Thinking
	The user/individual on the job needs to know and understand: SB4. How to assess the impact of selecting a particular location on the time and budget of the production

Overview

This unit is about coordinating activities and resources during the production of live events and during live studio programming

Manage live programme production

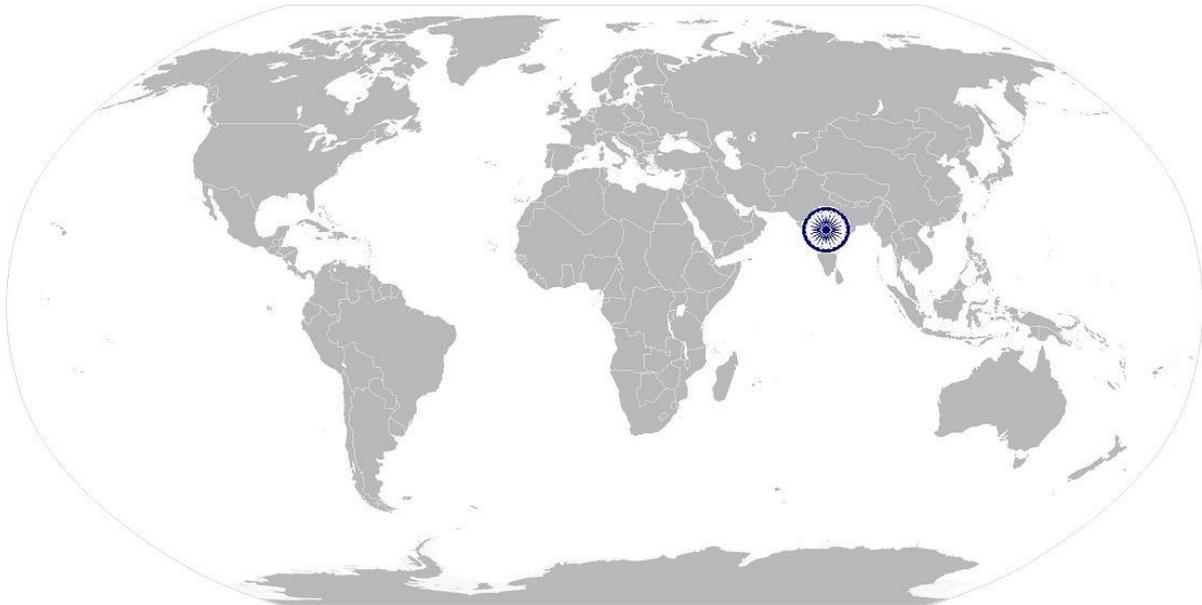

Unit Code	MES/ N 2807
Unit Title (Task)	Manage live programme production
Description	This OS unit is about coordinating activities and resources during the production of live events and during live studio programming
Scope	This unit/task is specific to producers responsible for live content production in television. It covers: <ul style="list-style-type: none"> • Manage live production
Performance Criteria (PC) w.r.t. the Scope	
Element	Performance Criteria
Manage live production	To be competent, the user/individual on the job must be able to: <ul style="list-style-type: none"> PC1. Understand, discuss and agree upon the objectives of a live programme, in conjunction with with key technical and creative personnel PC2. Correctly estimate production requirements (software, equipment, crew) that meet said objectives across: <ul style="list-style-type: none"> • Live Events (sporting events, cultural events, political events, business events, conferences and seminars and other events of local, regional, national or international importance) • Live Studio Programming (news bulletins, sports commentary and studio interviews) PC3. Conduct checks prior to the event to ensure that production can take place smoothly and any needed adjustments are made PC4. Co-ordinate among multiple teams and individuals, sometimes in a high pressure environment and successfully maintain continuity through the event
Knowledge and Understanding (K)	
A. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand: <ul style="list-style-type: none"> KA1. The vision and motivations of the creative team (Scriptwriter, Director, Production Designer among others) KA2. Production limitations including details of the location where the event will take place and any constraints on budget, resources and time availability KA3. The role and contribution of key departments involved in production, interdependencies and reporting structures
B. Technical Knowledge	The user/individual on the job needs to know and understand: <ul style="list-style-type: none"> KB1. How to assess live production requirements and create a list of equipment, materials and other resources required KB2. How to estimate the human resource requirements for live programme production KB3. How to assess the suitability of equipment for live production and the required technical specifications (e.g. high speed cameras for production of sporting events) KB4. How to assess ambient sound at the location and make appropriate arrangements for sound recording

Manage live programme production

	<p>KB5. How to operate (or instruct someone to operate) a video mixer to switch between different visual streams</p> <p>KB6. How to operate (or instruct someone to operate) an audio mixer to switch between different audio streams</p> <p>KB7. How to operate (or instruct someone to operate) graphics software and machines that allow for on screen graphics, live updates etc.</p> <p>KB8. Available file formats for music/ content, specific requirements for HD production or other specialized programmes and what file formats are acceptable for the current event</p> <p>KB9. Maintain workplace health and safety

National Occupational Standard

Unit Code		MES/ N 0104
Unit Title (Task)		Maintain workplace health and safety
Description	This OS unit is about contributing towards maintaining a healthy, safe and secure working environment	
Scope	<p>This unit/task covers the following:</p> <ul style="list-style-type: none"> • Understanding the health, safety and security risks prevalent in the workplace • Knowing the people responsible for health and safety and the resources available • Identifying and reporting risks • Complying with procedures in the event of an emergency 	
Performance Criteria (PC) w.r.t. the Scope		
Element	Performance Criteria	
Understanding the risks prevalent in the workplace	<p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. Understand and comply with the organisation’s current health, safety and security policies and procedures</p> <p>PC2. Understand the safe working practices pertaining to own occupation</p> <p>PC3. Understand the government norms and policies relating to health and safety including emergency procedures for illness, accidents, fires or others which may involve evacuation of the premises</p> <p>PC4. Participate in organization health and safety knowledge sessions and drills</p>	
Knowing the people responsible for health and safety and the resources available	<p>PC5. Identify the people responsible for health and safety in the workplace, including those to contact in case of an emergency</p> <p>PC6. Identify security signals e.g. fire alarms and places such as staircases, fire warden stations, first aid and medical rooms</p>	
Identifying and reporting risks	<p>PC7. Identify aspects of your workplace that could cause potential risk to own and others health and safety</p> <p>PC8. Ensure own personal health and safety, and that of others in the workplace through precautionary measures</p> <p>PC9. Identify and recommend opportunities for improving health, safety, and security to the designated person</p> <p>PC10. Report any hazards outside the individual’s authority to the relevant person in line with organisational procedures and warn other people who may be affected</p>	
Complying with procedures in the event of an emergency	<p>PC11. Follow organisation’s emergency procedures for accidents, fires or any other natural calamity in case of a hazard</p> <p>PC12. Identify and correct risks like illness, accidents, fires or any other natural calamity safely and within the limits of individual’s authority</p>	
Knowledge and Understanding (K)		
A. Organizational Context (Knowledge of the company / organization and	<p>The user/individual on the job needs to know and understand:</p> <p>KA1.
