Introduction

Qualifications Pack- Lighting Director

SECTOR: MEDIA AND ENTERTAINMENT

SUB-SECTOR: Television, Films, Print (special interest publications like magazines), Animation, Gaming, Advertising

OCCUPATION: Lighting

REFERENCE ID: MES/ Q 2001

ALIGNED TO: NCO-2004/NIL

Lighting Director in the Media & Entertainment Industry is the head of the lighting department

Brief Job Description: Individuals on this job are responsible for leading the lighting efforts of a production team

Personal Attributes: This job requires the individual to understand the technical aspects of lighting in a production team, give guidance to the production team about the various needs of the lighting crew in the pre-production, production and post-production phases. The individual uses technical experience to design the look for each shot and realise it by coordinating the efforts of the lighting team. The individual works closely with the Director, Producer, Camera Team, Gaffers, and the lighting crew/ electricians/ sparks.

Definitions

| Keywords /Terms | Description |
|---------------------------------------|---|
| Budget | Budget is an estimate of the total cost of production that may include a break-up of cost components |
| Campaign | Advertisement effort across media platforms, planned during a specific time period |
| Colour correction | Process used in stage lighting, photography, television, cinematography and other disciplines, the intention of which is to alter the overall color of the light |
| Director of Photography | is the chief over the camera and lighting crews working on a film, and responsible for achieving artistic and technical decisions related to the image |
| Lighting console | is an electronic device used to control multiple lights at once |
| Power management system | System used to generate electricity in order to power the lights and supporting equipment. For production, it usually consists of a generator. |
| Sector | Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests. |
| Sub-sector | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components. |
| Vertical | Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry. |
| Occupation | Occupation is a set of job roles, which perform similar/related set of functions in an industry |
| Function | Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS. |
| Sub-functions | Sub-functions are sub-activities essential to fulfill the achieving the objectives of the function. |
| Job role | Job role defines a unique set of functions that together form a unique employment opportunity in an organization. |
| Occupational Standards (OS) | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| Performance Criteria | Performance Criteria are statements that together specify the standard of performance required when carrying out a task |
| National Occupational Standards (NOS) | NOS are Occupational Standards which apply uniquely in the Indian context. |
| Qualifications Pack Code | Qualifications Pack Code is a unique reference code that identifies a qualifications pack. |
| Qualifications Pack(QP) | Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code. |
| Unit Code | Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'. |
| Unit Title | Unit Title gives a clear overall statement about what the incumbent should be able to do. |
| Description | Description gives a short summary of the unit content. This would be |

| | |
|-----------------------------|---|
| | helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for. |
| Scope | Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required. |
| Knowledge and Understanding | Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard. |
| Organizational Context | Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility. |
| Technical Knowledge | Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities. |
| Core Skills/Generic Skills | Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |

National Occupational Standard

Overview

This unit is about providing inputs on all lighting-related matters during the pre-production process

MES/ N 2001

Provide inputs during pre-production

| | |
|--|--|
| Unit Code | MES/ N 2001 |
| Unit Title (Task) | Provide inputs during pre-production |
| Description | This OS unit is about providing inputs on all lighting-related matters during the pre-production process |
| Scope | <p>This unit/task covers the following:</p> <ul style="list-style-type: none"> Carrying out pre-production planning May be across media organizations that operate as television channels, advertising agencies or film/television/photography production houses Using technical expertise and industry knowledge to facilitate pre-production planning |
| Performance Criteria (PC) with respect to the scope | |
| Element | Performance Criteria |
| Carrying out pre-production planning | <p>To be competent, the user/individual on the job must be able to:</p> <p>PC1. Understand the film-making/photography process and activities involved in the pre-production, production and post-production stages of film-making/photography</p> <p>PC2. Understand and map out the scope, scale and requirements of the production and all appropriate lighting aspects</p> |
| Using technical expertise and industry knowledge to facilitate pre-production | <p>PC3. Understand the different aspects of lighting, which may include:</p> <ul style="list-style-type: none"> Types of lighting, power supply and management systems Lighting requirements for different settings and locations Process flows of the lighting process Technical specifications attached to the equipment used in lighting <p>PC4. Understand the creative perspective of the Director/Director of Photography and use technical knowledge to:</p> <ul style="list-style-type: none"> Contribute to budget plans by offering preliminary costs of lighting requirements Offer logistical guidance Advise on location setting preferences based upon idea, script, technical requirements |
| Knowledge and Understanding (K) | |
| A. Organizational Context (Knowledge of the company / organization and its processes) | <p>The user/individual on the job needs to know and understand:</p> <p>KA1. Technical capabilities of the organization and its people in the lighting department</p> <p>KA2. Current inventory of lights and lighting equipment and power management systems within the organization, if any</p> <p>KA3. Financial resources available to the organization in order to procure lighting equipment and power management systems</p> |
| B. Technical Knowledge | <p>The user/individual on the job needs to know and understand:</p> <p>KB1. Theory and practice of electrics</p> <p>KB2. Different types of lights (spot, broad, flood, soft, dimmer, etc.)</p> <p>KB3. Different types of bulbs (HMI, Fluorescent, LED, etc.)</p> <p>KB4. The process of film/photography scheduling</p> <p>KB5. How the power management systems for lighting (generators, batteries,</p> |

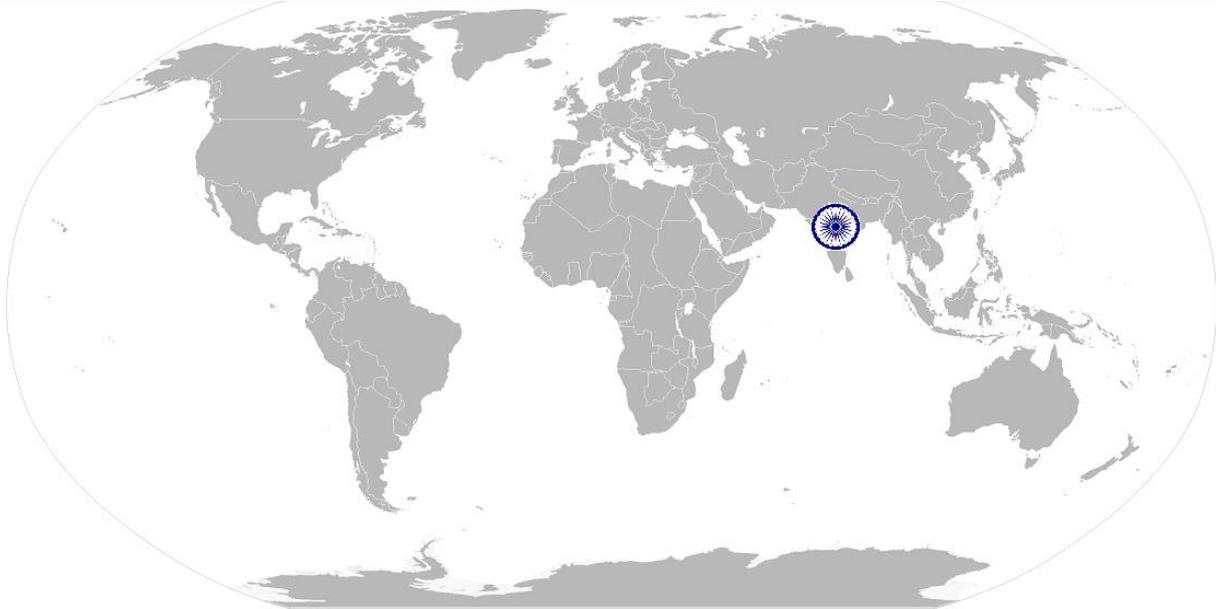

| | |
|--|--|
| | <p>inverters, etc.) work</p> <p>KB6. How to operate and use lighting equipment, including understanding wiring requirements</p> <p>KB7. Safety protocols related to handling lighting/power management equipment</p> |
| Skills (S) (Optional) | |
| <p>A. Core Skills/ Generic Skills</p> | <p>Writing Skills</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SA1. Document lighting requirements in order to facilitate the production schedule</p> <p>SA2. Document budget for the lighting equipment/power management systems</p> |
| | <p>Reading Skills</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SA3. Research and keep updated on trends in the techniques/processes of lighting</p> <p>SA4. Read and understand the technical specifications relating to lighting equipment and power management systems</p> |
| | <p>Oral Communication (Listening and Speaking skills)</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SA5. Understand the technical requirements from the client/director/director of photography</p> <p>SA6. Liaise with the lighting team to translate the mandate set by client/director/director of photography into specific requirements</p> |
| <p>B. Professional Skills</p> | <p>Decision Making</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SB1. Identify locations/technical requirements that best suit the mandate of the production team</p> <p>SB2. Determine the personnel that can bring specialization for a particular task, in case required</p> |
| | <p>Plan and Organize</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SB3. Compile a list of lighting requirements for the production process</p> |
| | <p>Problem Solving</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SB4. Assist the production team in solving any technical/logistical problems that may arise in the pre-production process relating to lighting requirements during production</p> |
| | <p>Analytical Thinking</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SB5. Facilitate/advance production timelines by introducing lighting technologies/equipment in the pre-production stage that may expedite production process</p> |
| <p>Critical Thinking</p> | |
| <p>The user/individual on the job needs to know and understand how to:</p> <p>SB6. Balance cost effectiveness of selected lighting protocol with client mandate/expectations</p> | |

National Occupational Standard

Overview

This unit is about about estimating and scheduling the lighting equipment needed for the production

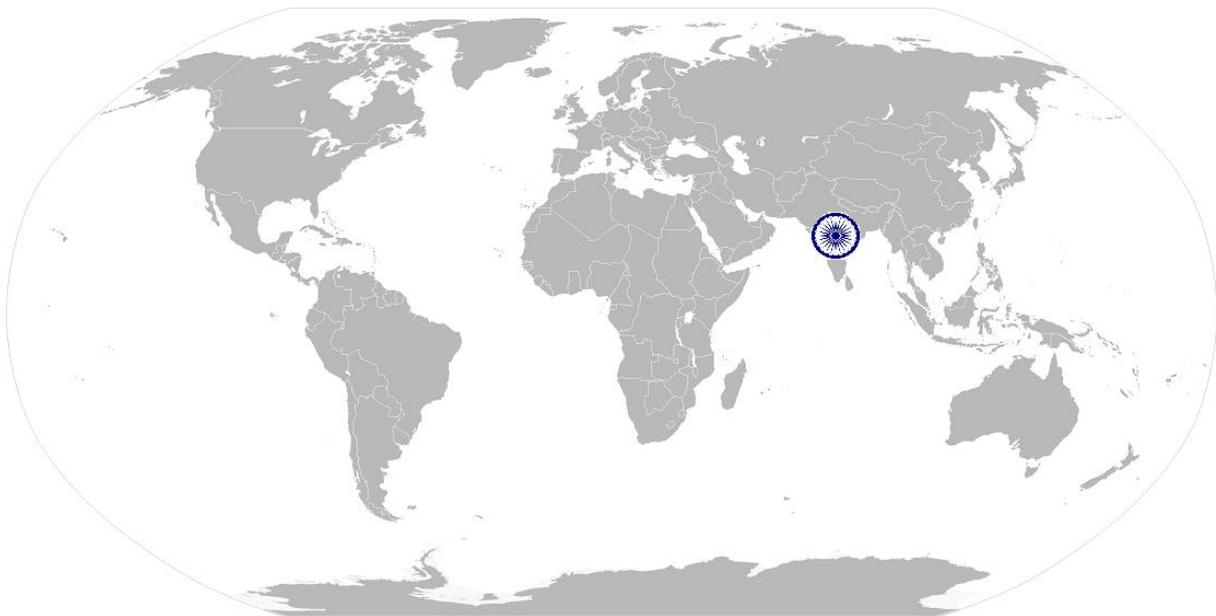

| | |
|--|---|
| Unit Code | MES/ N 2002 |
| Unit Title (Task) | Estimate lighting requirements |
| Description | This OS unit is about estimating and scheduling the lighting equipment needed for the production. |
| Scope | <p>This unit/task covers the following:</p> <ul style="list-style-type: none"> Understanding lighting objectives <ul style="list-style-type: none"> May be across media organizations that operate as television channels, advertising agencies or film/television/photography production houses Using technical expertise and industry knowledge to facilitate identification of lighting and other equipment <p>Note:</p> <ul style="list-style-type: none"> On large productions Lighting Directors, Lighting Managers or Gaffers may be responsible for estimating requirements across the shoot. However, Lighting Technicians may need to provide inputs/estimate requirements relevant to their personal scope of work. |
| Performance Criteria (PC) with respect to the scope | |
| Element | Performance Criteria |
| Understanding lighting objectives | To be competent, the user/individual on the job must be able to: PC1. Understand the film-making/photography process and the creative objectives of the production, with regards to lighting aspects, as relevant to the role |
| Using technical expertise and industry knowledge to facilitate identification of lighting and other equipment | <p>PC2. Understand the different aspects of lighting, which may include:</p> <ul style="list-style-type: none"> Types of lighting, power supply and management systems Lighting requirements for different settings and locations Process flows of the lighting process Technical specifications attached to the equipment used in lighting <p>PC3. Understand own, or each member in the lighting department's, roles and responsibilities, and one's own/others' scope for handling lighting equipment</p> <p>PC4. Estimate realistic lighting requirements as appropriate to the role, based upon production schedules, budgetary restrictions, logistical nuances of having the lighting equipment present and functioning at the day/s of the shoot, and discussions in the pre-production planning stage (if appropriate)</p> |
| Knowledge and Understanding (K) | |
| B. Organizational Context (Knowledge of the company / organization and its processes) | The user/individual on the job needs to know and understand: KA1. Technical capabilities of the organization and its people in the lighting department, as per role KA2. Current inventory of lights, power management systems and lighting equipment within the organization, if any KA3. Financial resources available to the organization in order to procure lighting equipment and power management systems, as per role |

| | |
|--|--|
| <p>B. Technical Knowledge</p> | <p>The user/individual on the job needs to know and understand:</p> <p>KB1. Theory and practice of electrics</p> <p>KB2. How to determine how many items of plant, materials and electrical equipment are required, what types will be required and their logistics</p> <p>KB3. Different types of lights (spot, broad, flood, soft, dimmer, etc.)</p> <p>KB4. Different types of bulbs (HMI, Fluorescent, LED, etc.)</p> <p>KB5. The size of crew necessary to undertake the production requirements and comply with the production schedule</p> <p>KB6. The process of film/photography scheduling</p> <p>KB7. How the power management systems for lighting (generators, batteries, inverters, etc.) work</p> <p>KB8. The importance of briefing the best boy, crew & outside contractors fully about the production and its requirements</p> <p>KB9. How to operate and use lighting equipment, including understanding wiring requirements</p> <p>KB10. The documentation required for lighting equipment contractors, cost control and alerting to possible production scheduling problems</p> <p>KB11. Safety protocols related to handling lighting/power management equipment</p> |
| <p>Skills (S) (Optional)</p> | |
| <p>C. Core Skills/ Generic Skills</p> | <p>Writing Skills</p> <p>The user/individual on the job needs to know and understand how to:</p> <p>SA1. Document budget for the lighting equipment/power management systems</p> <p>SA2. Document lighting requirements in order to facilitate the production schedule</p> <p>Reading Skills</p> <p>The user/individual on the job needs to know and understand how to:</p> <p>SA3. | | <p>The user/individual on the job needs to know and understand how to:</p> <p>SB3. Contact vendors/associates in order to provide manpower necessary to undertake the production process</p> <p>SB4. Determine human resource gaps in the lighting department and take steps to fill those gaps</p> |
| | Customer Centricity |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SB5. Meet expectations of the client/director/director of photography from the lighting department</p> <p>SB6. Exhibit techniques/skills required to meet client expectations</p> |

MES/ N 2004

Recruit lighting crew

| | |
|--|--|
| | Problem Solving |
| | The user/individual on the job needs to know and understand how to: SB7. Contact vendors/human resource firms in order to provide manpower necessary to undertake the production process or fill gaps left by outgoing crew personnel SB8. Inform those who work in the lighting team about their job responsibilities and limitations in a way which promotes good working relationships SB9. Confirm that lighting crew personnel understand the risk assessment relevant to the production and ensure that is adhered to |
| | Analytical Thinking |
| | The user/individual on the job needs to know and understand how to: SB10. Determine future human resource requirements in the lighting team, keeping in mind the production pipeline and status of existing personnel |
| | Critical Thinking |
| | The user/individual on the job needs to know and understand how to: SB11. Map current compensation structure of the firm vs. the industry, and how this affects the quality of personnel that the organization attracts |

Overview

This unit is about managing and coordinating efforts of the lighting team before and during the shoot

MES/ N 2005

Co-ordinate lighting activities

| | |
|---|---|
| Unit Code | MES/ N 2005 |
| Unit Title (Task) | Co-ordinate lighting activities |
| Description | This OS unit is about managing and coordinating efforts of the lighting team before and during the shoot |
| Scope | This unit/task covers the following: <ul style="list-style-type: none"> • Understanding and planning lighting activities • Managing and coordinating efforts of lighting team |
| Performance Criteria (PC) with respect to the scope | |
| Element | Performance Criteria |
| Understanding and planning lighting activities | To be competent, the user/individual on the job must be able to: <ul style="list-style-type: none"> PC1. Identify each member of the lighting team and their roles and responsibilities PC2. Identify important members of the production team (in relation to the lighting department) and their roles and responsibilities PC3. Break-down the production schedule relevant to lighting into a daily task list, for oneself or the wider team |
| Managing and coordinating efforts of lighting team | <ul style="list-style-type: none"> PC4. Lead, or support, the lighting unit toward successful completion of their tasks, and manage, or support in managing, day to day activities during the shoot PC5. Track progress against the lighting schedule and budget, if appropriate to the role PC6. Anticipate potential delays/ budget overruns, for own work or the wider team's, and escalate these to relevant departments and identify ways to minimize them PC7. Attend relevant production meetings, as appropriate to the role, to ensure the electrical requirements are accounted for, and that any change and their implications for lighting are considered |
| Knowledge and Understanding (K) | |
| A. Organizational Context (Knowledge of the company / organization and its processes) | The user/individual on the job needs to know and understand: <ul style="list-style-type: none"> KA1. Technical capabilities of the organization and its people in the lighting department KA2. Profile of people working in the lighting department, especially the personnel involved in the production process KA3. Current business vendors/associates of the organization |
| B. Technical Knowledge | The user/individual on the job needs to know and understand: <ul style="list-style-type: none"> KB1. Theory and practice of electrics KB2. How to determine how many items of plant, materials and electrical equipment are required, what types will be required and their logistics KB3. Different types of lights (spot, broad, flood, soft, dimmer, etc.) KB4. Different types of bulbs (HMI, Fluorescent, LED, etc.) KB5. The size of crew necessary to undertake the production requirements and |

| | |
|--|--|
| | <p>comply with the production schedule</p> <p>KB6. The process of film/photography scheduling</p> <p>KB7. How power management systems for lighting (generators, batteries, inverters, etc.) work</p> <p>KB8. The importance of briefing the best boy, crew & outside contractors fully about the production and its requirements</p> <p>KB9. How to operate and use lighting equipment, including understanding wiring requirements</p> <p>KB10. How to coordinate efforts between members of the lighting and production teams in order to facilitate production process</p> <p>KB11. Safety protocols related to handling lighting/power management equipment</p> |
| Skills (S) (Optional) | |
| <p>A. Core Skills/ Generic Skills</p> | <p>Writing Skills</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SA1. Document process flows for the lighting equipment/power management systems on the day/s of shoot</p> <p>SA2. Document lighting requirements in order to facilitate the production schedule</p> <p>SA3. Collate and disseminate information to team members about changes in the production plan and its effect on the lighting department</p> |
| | <p>Reading Skills</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SA4. Identify trends in the techniques/processes of lighting</p> <p>SA5. Identify technical specifications relating to lighting equipment and power management systems</p> |
| | <p>Oral Communication (Listening and Speaking skills)</p> |
| <p>The user/individual on the job needs to know and understand how to:</p> <p>SA6. Present technical requirements as per the mandate set by the client/director/director of photography</p> <p>SA7. Translate the mandate set by client/director/director of photography into requirements specific to the lighting team</p> <p>SA8. Interact with lighting and other production team members on the day/s of shoot to achieve desired results</p> | |
| <p>B. Professional Skills</p> | <p>Decision Making</p> |
| | <p>The user/individual on the job needs to know and understand how to:</p> <p>SB1. Determine how many items of plant, materials and electrical equipment are required, what types will be required and their logistics</p> <p>SB2. Delegate tasks to team members on the day/s of shoot</p> <p>SB3. Determine the personnel that can bring specialization for a particular task, in case required</p> |
| | <p>Plan and Organize</p> |
| <p>The user/individual on the job needs to know and understand how to:</p> <p>SB4. Compile a list of lighting requirements for the production process and delegate tasks in the process to team members</p> <p>SB5. Contact vendors/associates in order to provide equipment/skills necessary to</p> | |

Nomenclature for QP and NOS

Qualifications Pack

Occupational Standard

An example of NOS with 'N'

[Back to top...](#)

The following acronyms/codes have been used in the nomenclature above:

| Sub-sector | Range of Occupation numbers |
|------------|-----------------------------|
| ... | ... |

| Sequence | Description | Example |
|------------------|-------------------------|---------|
| Three letters | Media and Entertainment | MES |
| Slash | / | / |
| Next letter | Whether QP or NOS | Q |
| Next two numbers | Lighting | 20 |
| Next two numbers | Lighting Director | 01 |

CRITERIA FOR ASSESSMENT OF TRAINEES

Job Role: Lighting Director

Qualification Pack: MES Q 2001

Sector Skill Council: Media and Entertainment Skills Council

| | NOS | NOS NAME | Weightage |
|---|-------------|--------------------------------------|-------------|
| 1 | MES/ N 2001 | Provide inputs during pre-production | 20% |
| 2 | MES/ N 2002 | Estimate lighting requirements | 20% |
| 3 | MES/ N 2003 | Procure or arrange for lights | 20% |
| 4 | MES/ N 2004 | Recruit lighting crew | 10% |
| 5 | MES/ N 2005 | Co-ordinate lighting activities | 20% |
| 6 | MES/ N 0104 | Maintain workplace health and safety | 10% |
| | | | 100% |

Guidelines for Assessment:

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory & Practical part will be based on knowledge bank of questions created by the AA and approved by SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criteria.
5. To pass the Qualification Pack , every trainee should score a minimum of 70% cumulatively (Theory and Practical).

| Assessment Outcomes | Assessment Criteria for Outcomes | Marks Allocation | | | |
|---|---|------------------|--------|--------|------------------|
| | | Total Mark | Out Of | Theory | Skills Practical |
| MES/ N 2001 (Provide inputs during pre-production) | PC1. Understand the film-making/photography process and activities involved in the pre-production, production and post-production stages of film-making/photography | 100 | 25 | 15 | 50 |
| | PC2. Understand and map out the scope, scale and requirements of the production and all appropriate lighting aspects | | 25 | 10 | |
| | PC3. Understand the different aspects of lighting, which may include: <ul style="list-style-type: none"> • Types of lighting, power supply and management systems • Lighting requirements for different settings and locations • Process flows of the lighting process | | 25 | 15 | |
| | PC4. Understand the creative perspective of the Director/Director of Photography and use technical knowledge to: <ul style="list-style-type: none"> • Contribute to budget plans by offering preliminary costs of lighting requirements • Offer logistical guidance • Advise on location setting preferences based upon idea, script, technical requirements | | 25 | 10 | |
| | | Total | 100 | 50 | 50 |
| Assessment Outcomes | Assessment Criteria for Outcomes | Marks Allocation | | | |
| | | Total Mark | Out Of | Theory | Skills Practical |
| MES/ N 2002 (Estimate lighting requirements) | PC1. Understand the film-making/photography process and the creative objectives of the production, with regards to lighting aspects, as relevant to the role | 100 | 20 | 10 | 50 |
| | PC2. Understand the different aspects of lighting, which may include: <ul style="list-style-type: none"> • Types of lighting, power supply and management systems • Lighting requirements for different settings and locations • Process flows of the lighting process • Technical specifications attached to the equipment used in lighting | | 30 | 20 | |
| | PC3. Understand own, or each member in the lighting department's, roles and responsibilities, and one's own/others' scope for handling lighting equipment | | 20 | 10 | |

| | | | | | |
|--|---|-------------------------|---------------|---------------|-------------------------|
| | PC4. Estimate realistic lighting requirements as appropriate to the role, based upon production schedules, budgetary restrictions, logistical nuances of having the lighting equipment present and functioning at the day/s of the shoot, and discussions in the pre-production planning stage (if appropriate) | | 30 | 10 | |
| | | Total | 100 | 50 | 50 |
| Assessment Outcomes | Assessment Criteria for Outcomes | Marks Allocation | | | |
| | | Total Mark | Out Of | Theory | Skills Practical |
| MES/ N 2003 (Procure or arrange for lights) | PC1. Discuss and agree on the list of resources/equipment to be procured and the allocated budget with the creative and finance teams | 100 | 25 | 15 | 50 |
| | PC2. Determine the most appropriate method of procurement (hire, purchase or fabricate) based on the item required and its significance to the production | | 20 | 10 | |
| | PC3. Research and identify appropriate lighting/equipment vendors for procurement, taking into account existing vendor relationships | | 20 | 5 | |
| | PC4. Negotiate commercial terms effectively with suppliers and vendors and procure the relevant equipment and resources required, which may include spots, consoles, generators, power management systems etc. | | 20 | 10 | |
| | PC5. Ensure, or supervise others to ensure, that appropriate documentation, insurance, etc is kept, in line with relevant laws and regulations | | 15 | 10 | |
| | | Total | 100 | 0 | 50 |
| Assessment Outcomes | Assessment Criteria for Outcomes | Marks Allocation | | | |
| | | Total Mark | Out Of | Theory | Skills Practical |
| MES/ N 2004 (Recruit lighting crew) | PC1. Identify the number of people required, duration of involvement and job specifications of each role required within the lighting team | 100 | 15 | 5 | 50 |
| | PC2. Identify any personnel gaps in the lighting crew and take measures to fill those gaps | | 15 | 5 | |
| | PC3. Shortlist profiles and conduct interviews and/or practical tests to establish a fit for each role | | 15 | 5 | |
| | PC4. Negotiate and finalise candidate salaries within the hiring budget allocated | | 10 | 5 | |

| | for the cast and crew | | | | |
|--|---|------------------|--------|--------|------------------|
| | PC5. Agree the details for contracts to be drawn up and allocate duties to those who will be working in the lighting crew, that accords with their competence and skills | | 15 | 10 | |
| | PC6. Inform those who work in the lighting team about their job responsibilities and limitations in a way which promotes good working relationships | | 15 | 10 | |
| | PC7. Train personnel to operate lights to the satisfaction of the client/director/director of photography, and to meet any gaps in personnel if necessary | | 15 | 10 | |
| | | Total | 100 | 50 | 50 |
| Assessment Outcomes | Assessment Criteria for Outcomes | Marks Allocation | | | |
| | | Total Mark | Out Of | Theory | Skills Practical |
| MES/ N 2005 (Co-ordinate lighting activities) | PC1. Identify each member of the lighting team and their roles and responsibilities | 100 | 15 | 5 | 50 |
| | PC2. Identify important members of the production team (in relation to the lighting department) and their roles and responsibilities | | 10 | 5 | |
| | PC3. Break-down the production schedule relevant to lighting into a daily task list, for oneself or the wider team | | 15 | 10 | |
| | PC4. Lead, or support, the lighting unit toward successful completion of their tasks, and manage, or support in managing, day to day activities during the shoot | | 15 | 10 | |
| | PC5. Track progress against the lighting schedule and budget, if appropriate to the role | | 20 | 10 | |
| | PC6. Anticipate potential delays/ budget overruns, for own work or the wider team's, and escalate these to relevant departments and identify ways to minimize them | | 10 | 5 | |
| | PC7. Attend relevant production meetings, as appropriate to the role, to ensure the electrical requirements are accounted for, and that any change and their implications for lighting are considered | | 15 | 5 | |
