

MEDIA & ENTERTAINMENT
SKILLS COUNCIL

Qualification Pack Name: Sound Editor

QP code: MES/Q3404

Q 1:- Equipment used to record your voice onto the computer is known as

- a. Earphones
- b. Microphone
- c. Keyboard
- d. Reader

Q 2:- The purpose of the Anti-aliasing filter is to.....

- a. Low pass filter the audio at a frequency related to the sampling rate
- b. High pass filter the audio at the sampling rate
- c. Both of these
- d. None of these

Q 3:- The amplitude measurement of each sample is rounded to the nearest bit. What is this process called?

- a. Quantisation
- b. Sample and hold
- c. Clocking
- d. Compression

Q 4:- Which of these is recorded sound that is stored as data and can be easily manipulated?

- a. Digital Audio
- b. Sound Track
- c. Analog Audio
- d. Podcast

Q 5:- What unwanted effect might quantisation have if the bit depth is low?

- a. Digital distortion
- b. Quantisation noise
- c. Alias noise
- d. None of these

Q 6:- Which of the following is NOT considered professional sampling rate and bit depth?

- a. 16 bits 44.1 kHz
- b. 24 bits 96 kHz
- c. 16 bits 48 kHz
- d. 12 bits 32 kHz

Q 7:- External interference that can get onto sound clips is

- a. Effects
- b. Track
- c. Pitch
- d. Noise

Q 8:- Recorded sound that is reproduced using some property of the original sound is

- a. Digital Audio
- b. Sound Track
- c. Analog Audio
- d. Podcast

Q 9:- Identify the button on the toolbar below:

- a. Playback
- b. Stop
- c. Pause
- d. Record

Q 10:- Audio podcasts should be saved as what file type?

- a. .mp3
- b. .wav
- c. .aup
- d. .pod

Q 11:- A file type that can be opened and edited is.....

- a. .mp3
- b. .wav
- c. .aup
- d. .mp4

Q 12:- Which of the following pathways represents the Digital audio process?

- a. Anti-aliasing filter, Sample and hold, (processing and editing in the digital domain) data recovery filter, DAC
- b. Data recovery filter, Sample and hold, (processing and editing in the digital domain) anti-aliasing filter, DAC
- c. Sample and hold, Anti-aliasing filter, (processing and editing in the digital domain) data recovery filter, DAC
- d. Anti-aliasing filter, Sample and hold, (processing and editing in the digital domain) DAC, data recovery filter

Q 13:- Bit depth affects.....

- a. The dynamic range of the audio
- b. The bandwidth of the audio
- c. Both of these
- d. None of these

Q 14:- How do subscribers receive your podcasts?

- a. They must use a podcast receiver
- b. You should email it to them
- c. They download them from the website
- d. They listen to them as you broadcast them

Q 15:- The first component in the Digital Audio signal train is

- a. Anti-alliteration filter
- b. Anti-apartheid filter
- c. Anti-alienation filter
- d. Anti-aliasing filter

Q 16:- Employees are responsible for doing which of the following?

- a. following safety rules and procedures
- b. reporting hazardous conditions
- c. Both of these
- d. None of these

Q 17:- What is the best way to protect an employee working at a noisy machine?

- a. Allow the machine to only be used for short periods of time
- b. Provide a pair of eye defenders
- c. Reduce or eliminate noise from the machine
- d. Shout really loudly at them when they do something wrong

Q 18:- Identify the following PPE.

- a. Safety mask
- b. Helmet
- c. Gloves
- d. Goggles

Q 19:- Employers are responsible for providing which of the following?

- a. safety training
- b. personal protective equipment
- c. supervision to ensure workers are following safety procedures
- d. All of these

Q 20:- Safety signs cannot prevent accidents

- a. TRUE
- b. FALSE

Q 21:- You should take part in which of these activity in order to understand Fire emergency evacuation in any incident?

- a. Workshops
- b. Fire mock drills
- c. Rehearsals
- d. Lectures

Q 22:- In which cases should you call an ambulance?

- a. When the injury or condition is life-threatening
- b. When company pays for your bill
- c. When you don't want to drive
- d. All of these

Q 23:- Identify the following equipment

- a. Fire extinguisher
- b. Pump
- c. Horn
- d. Sprinkler

Q 24:- Why should regular inspections of the workplace be done?

- a. To check everyone is doing their job
- b. To check whether the working environment is safe
- c. To prepare for a visit from a Health inspector
- d. To pass time

Q 25:- If injured on the job, the first thing an employee should do is.....

- a. tell the supervisor
- b. get first aid
- c. It complies with health and safety law
- d. It should not be done at all

Q 26:- What is the most important reason why all accidents should be investigated and recorded?

- a. It prevents similar accidents in the future
- b. It satisfies the enforcement officer
- c. It complies with health and safety law
- d. It should not be done at all

Q 27:- Which of these is NOT a hazard at workplace?

- a. Biological
- b. Chemical
- c. Physical
- d. compression

Q 28:- All workplaces need to provide portable fire extinguishers

- A. TRUE
- B. FALSE

Q 29:- When you hear the evacuation alarm you must.....

- a. Stop to get your belongings
- b. Call your supervisor
- c. Await further instruction
- d. Evacuate immediately to the emergency assembly location

Q 30:- This picture depicts a safety sign of which type of accident at workplace

- a. Caution from Slips and falls at workplace
- b. Caution from Earthquake
- c. Danger
- d. Tornado
